Meridian Health’s Medical/Dental Staff Achievements

Achievements

2010/2011

Meridian Health
Looking back over the past year, I don’t know where to begin in acknowledging all that our valued physicians have accomplished. The achievements and activities outlined in this report are remarkable and a powerful testament to the collective talents of all of you.

Whether you are restoring hope and returning members of this community back to their lives, or serving those who are less fortunate, both locally and in communities around the world through your missions, it is clear that your care and compassion have no boundaries. Through your commitment to groundbreaking clinical research, we are able to provide the most up-to-date care to patients and create new guidelines for future care. As our community partners, you provide important education and outreach to grateful area residents who are increasingly looking to become more involved in and informed about their health.

The health care industry is facing unprecedented challenges. That’s why over the course of the last year we have remained committed to providing you with the tools to face these changes, such as our subsidy program to assist in the installation of electronic health records, and the implementation of our Meridian Health Information Exchange. Investing in our physicians and in new technology will set the foundation for a clinically integrated network — one that is poised for even greater achievements in the future.

It goes without saying that the best health care systems are comprised of the best physicians. These pages are just a simple way for Meridian Health to acknowledge all of the not-so-simple things you do to help us fulfill our vision of being the best health care system. It is your support that allows us to continue Taking Care of New Jersey. Thank you for your continued commitment in ensuring the health and well-being of our communities.

John K. Lloyd, FACHE
President, Meridian Health
Welcome to the Team, Bayshore!
Since the merger in September 2010, Meridian Health and Bayshore Community Hospital have been working to combine and enhance access to care and improve clinical quality and service to the community. As a result, patient satisfaction scores have increased in the Emergency Department and plans for a Pediatric Care Center are underway.

Cardiac Surgery and Trauma Reunion
In September 2010, Jersey Shore University Medical Center held a Cardiac Surgery and Trauma Reunion where former patients and their families were invited back to the hospital to reconnect with their physicians and hear from other patients.

Southern Ocean’s Center for Bariatrics Named “Center of Excellence”
The Center for Bariatrics at Southern Ocean has been named a “Center of Excellence” by the American Society of Metabolic and Bariatric Surgery. The Center was notified of this prestigious designation in December following a full day survey and inspection by the Bariatric Surgical Review Committees.

Improved Health through Technology
Meridian Health and Cypak launched a joint venture, iMPak Health, Inc., to develop wireless health monitoring devices and services. Through this venture, low cost, consumer-friendly technology and services are being introduced to markets, such as pain and sleep disorders, to improve the experience of the health care consumer.

Meridian Celebrates Five Years of CyberKnife® Robotic Radiosurgery
In 2005, Riverview Medical Center became home to the CyberKnife Robotic Radiosurgery System. It offers a non-invasive alternative to surgery for the treatment of both cancerous and non-cancerous tumors in the brain, as well as other sites including prostate, lung, spine, liver, pancreas, and kidney. During this period they have treated more than 1,000 patients.

Robotic Assisted Surgery Comes to Jersey Shore
In December 2010, the first robotic assisted surgeries were successfully performed at Jersey Shore University Medical Center for urology and gynecology.
of New Jersey
Cardiac Cath Lab at Bayshore

Bayshore Community Hospital recently announced that its Cardiac Catheterization Laboratory has been granted full-service adult diagnostic capabilities for all cardiac catheterization patients by the New Jersey Department of Health – “a proud achievement and many more to come,” says George Younan, M.D.

Center for Treatment of Paralysis and Reconstructive Nerve Surgery

In November 2010, Jersey Shore University Medical Center, together with a team of regarded surgeons announced the launch of a unique Center. Representing one of the most comprehensive Centers of its kind in the nation, it uniquely combines advanced surgical treatments for paralysis and nerve damage, with rehabilitation, continuum care, and research.

At the Heart of It All

The New Jersey Hospital Association recognized Meridian for its Chronic Heart Failure (CHF) Pilot Program, which took place at Ocean Medical Center. The program provides comprehensive, individualized education, follow-up, and support for patients with CHF. In less than eight months, this highly successful program reduced the percentage of patients who were later readmitted to Ocean.

Meridian Stroke Centers Are Award Winning

The American Heart Association/American Stroke Association’s Get With The Guidelines® Stroke Gold Plus Performance Achievement Award recognizes Jersey Shore University Medical Center, Ocean Medical Center, and Riverview Medical Center for their commitment and success in implementing excellent care for stroke patients, according to evidence-based guidelines.

Clean Hands Save Lives

Over the past year, physician leaders have been working to help reduce the number of hospital-associated infections and improve our hand hygiene compliance. Through various communications and events, the Clean Hands Saves Lives campaign has helped educate Meridian team members on the importance of hand hygiene.
New Jersey Monthly Recognizes Top Docs

Each year, *New Jersey Monthly* Magazine surveys New Jersey physicians to learn which doctors they would choose to treat themselves or a family member. Nurses also have the opportunity to select New Jersey’s Top Doctors in a unique collaboration between *New Jersey Monthly* Magazine, the New Jersey Health Care Quality Institute, the Monmouth University Polling Institute, and the Institute for Nursing of the New Jersey State Nurses Association. Meridian physicians receiving these honors include the following:

**Anesthesiology and Pain Management**
- Scott E. Metzger, M.D.

**Surgery: Plastic and Reconstructive**
- Andrew Elkwood, M.D.
- Michael Rose, M.D.

Nurses’ Choice Physician-of-the-Year Awards

It’s an annual tradition at Jersey Shore University Medical Center and Ocean Medical Center — the nursing teams at each hospital select their own “top docs” during Nurses’ Week. The following 2010 and 2011 Nurses’ Choice Awards celebrate not only our outstanding physicians, but also the respect that nurses have for members of the medical staff.

**Jersey Shore University Medical Center**
- Rajiv Biswal, M.D.
- Dean Cindrario, M.D.
- Michael Dambeck, D.O.
- Junsuke Maki, M.D.
- Gregory Roehrig, M.D.

- David Greenberg, M.D.
- Fernando Guerrero, M.D.
- Sung Kwon, M.D.
- Ariel Meyer, D.O.
- Vincent Milazzo, M.D.
- Alfred Parchment, M.D.
- Virendra Patel, M.D.
- Jonathan Reyes, M.D.
- Christopher Tolerico, M.D.
- Michael Unterman, M.D.
For the tenth year, Ocean Medical Center’s nurses took time during Nurses’ Week to recognize physicians for their collaboration, collegiality, and teamwork. They honored 18 physicians, and the Emergency Department nurses even wrote their own song to serenade Dr. Carino during his recognition.
Meridian Recognition Awards
At Meridian, we have our own recognition program for exceptional service – and under this umbrella, many of our Medical and Dental staff were honored in 2010 or 2011 with Polaris, Orion, or Galaxy awards. Polaris Award recipients genuinely improve the environment and experience for our colleagues, our patients, and their families. The Orion Award recognizes teams that have had a significant and overwhelming positive impact, and the Galaxy Award honors extraordinary acts of service that exemplify Meridian’s values of professional excellence with personal concern.

Academics and Research

Through Meridian’s commitment to research, we are able to provide the most advanced care to patients and contribute to new treatments in the future. What’s more, research conducted at Meridian has very real benefits for patients. Much of the research is in the form of clinical trials — studies that offer patients medications, treatments, procedures, and other therapies that may not be approved, but could have benefits beyond what’s currently available. Through their publications, presentations, and clinical trials, our Medical and Dental Staff members impact patient care and advance the continually evolving practice of medicine.

Publications

Our Medical and Dental Staff members have authored numerous articles and chapters for prestigious scientific journals and professional publications. They’ve also assisted in the review process that holds the content of these publications to the highest standards. Our authors and manuscript reviewers are listed below.

Professional Lectures and Presentations

There’s a lot to cover when it comes to our Medical and Dental Staff sharing their clinical knowledge in professional venues. They chair steering committees, speak at annual meetings around the globe, present their research through poster presentations, teach courses, and present grand rounds. Here are some of those accomplishments from 2010 and 2011.

Research Day Showcases the Breadth of Meridian’s Practice-Based Research

When Jersey Shore University Medical Center hosted its annual Meridian Health Research Day, Lance Auditorium was packed with more than 150 health care professionals who learned about original research conducted by Meridian Health students, team members, and physicians.

“Research Day allows health care professionals the ability to evaluate critical, up-to-date scientific data and to show them present examples of practice-based research that takes place here on a daily basis,” says Ernest W. Richards, Ph.D., corporate director of Research Services.

Clinical Research
Physician-led research shines forth not only through the publications and presentations we’ve listed, but also through the nearly 231 active clinical trials that are currently underway. This includes 120 investigator-initiated studies, 93 cooperative group studies, and 18 pharma-based studies with over 300 patients enrolled in clinical trials during 2010 alone. Members of our Medical and Dental Staff are tracking down the answers to an array of challenging questions — from which promising new treatment options impact cancer outcomes to how nitric oxide prevents bronchopulmonary dysplasia in certain preterm infants.

Community Outreach
In addition to providing exceptional treatment, our Medical and Dental Staff members are available to our community in many other capacities. They give presentations on countless topics of interest, provide health screenings for early detection of various conditions, share their expertise in various media outlets, and offer insightful medical information in publications like Meridian HealthViews and Meridian KidViews.

Presentations and Screenings
By taking the time to lead presentations, speak at public events, or provide health screenings, our Medical and Dental Staff members help people understand and prevent health issues, which is an integral component to building healthy communities. With topics ranging from understanding autism to preventing diabetes, individuals of all ages benefit from the knowledge they share. The following members of the Medical and Dental Staff were involved in recent presentations and screenings:

- Vincent Abenante, M.D.

Harry Carson, New York Giants and Pro Football Hall of Fame Inductee, participates in Meridian's Communities of Color: Tackling Stroke Event
In May 2011, Harry Carson, New York Giants and Pro Football Hall of Fame Inductee, along with physicians Ronald Benitez, M.D., Brian K. Roper, M.D., Jorge Corzo, M.D., and Stephen J. Martino, M.D. spoke about the health disparity of stroke among the African American population and the importance of wellness and prevention.

Meridian Women’s Heart Connection’s Annual Red Dress Event
This third annual event, held in February 2011 in partnership with the Heart Truth Campaign, helps educate and empower women to take control of their heart health. The event featured physicians Scott R. Eisenberg, D.O. and Sara Grimley, M.D. as well as patients who survived heart disease.
Joan Hamburg’s Exclusive Broadcast with Meridian Health
Meridian Women’s Heart Connection held an afternoon of heart-healthy dining and discussion as radio personality Joan Hamburg, host of The Joan Hamburg Show on WOR NewsTalk Radio 710, interviewed a panel of Meridian CardioVascular Network physicians. Joan is pictured here with physicians Aristotelis E. Vlahos, M.D., and Shaddy K. Younan, M.D. More than 150 attendees learned about Meridian’s cardiovascular programs and advancements in surgery, and heard tips on prevention and wellness.
In the Media

When a reporter has a health question – no matter what the topic – a member of our Medical and Dental Staff is there to answer it. Meridian physicians and dentists step out into the limelight by making television appearances, participating in radio shows, conducting newspaper interviews, and serving as general spokespeople for the media. In doing so, they also showcase the many exceptional services and initiatives provided by Meridian Health. Physicians responding to media inquiries on behalf of Meridian Health include the following:

Jersey Shore Physicians Speak at Monmouth University about Overseas Trip

For the 10th consecutive year, Monmouth University’s Institute for Global Understanding held its university-wide convention to promote awareness of the issues and challenges in the dynamic, interdependent world. This year, Jersey Shore University Medical Center physicians Saad Saad, M.D., pediatric surgeon, and Andrew Elkwood, M.D., plastic surgeon, spoke to a large group of students, faculty, and administrators on the university campus about their trip to Jerusalem to treat needy Palestinian children. The program focused on how those of different faiths can work together to heal the suffering of needy children. During the program, they shared a 17-minute documentary, “31 Sleepless Nights in Gaza,” featuring their trip to Jerusalem.

POWERful Show on Memory Loss Features Southern Ocean Physician

William K. Power Jr., M.D., a member of Southern Ocean Medical Center’s Medical and Dental Staff, taped a show on Ocean County College’s original programming, The Best Years. Dr. Power, who is board certified in internal medicine and gerontology, was interviewed on the topic “Do You Remember When? Memory Enhancement – What’s Normal and What’s Not?”
Social Media

Social media now plays an integral role in any effective communications effort, and the health care arena is no exception. From Facebook and YouTube to health-related forums and blogs, our hospitals and doctors are actively engaged in reaching out to our community through these popular online vehicles.

YouTube

Further expanding our commitment to “Taking Care of New Jersey,” our physicians provide useful health information and preventive strategies through YouTube videos on such topics as reducing the risk for cancer, knowing the signs of stroke, understanding the relevance of mammograms, and more. Outside the Office

When our Medical and Dental Staff members go home for the evening, their contributions to the community don’t stop there. Rather, they undertake various forms of service and pursue interesting hobbies and talents. They even travel around the world to share the gift of healing with those who are most in need.

Community Involvement

In their spare time, many members of our Medical and Dental Staff turn their attention to community service, like coaching athletic teams, volunteering for first aid squads, or participating in fundraising initiatives. In addition to ongoing service roles for countless boards and advisory groups, here are a few things they accomplished in 2010 and 2011:

Hero Meets Star

Kudos to Tommasina Papa-Rugino, M.D., who recently revived a theatergoer while attending a performance of That Championship Season on Broadway. Dr. Papa-Rugino administered CPR and a defibrillator on a man who had stopped breathing and had no pulse. She was successful in reviving him, and he was breathing again when the EMS arrived. The production continued and following its conclusion, star Kiefer Sutherland sought out Dr. Papa-Rugino to thank her and pose for a photo. Weeks later, the man she had saved contacted Dr. Papa-Rugino and let her know he was doing well.

Pedal Power

Throughout the years, Robert Sweeney, D.O., and Leonard Zawodniak, M.D., have found themselves peddling long-distance cycling trips cross-country and overseas. Both physicians have accumulated an impressive resume of trips including Dr. Zawodniak’s recent tour along the eastern half of old Route 66 covering about 1,200 miles over the course of two weeks, and Dr. Sweeney’s Mt. Washington, New Hampshire Auto Road Bicycle Hill Climb consisting of 7.5 miles over a 12% gradient. In 2008, the two cycled together in the Southern Transcontinental ride; a 26-day ride from San Diego to Tybee Island, Georgia covering an astounding 3,000 miles. Both Dr. Sweeney and Dr. Zawodniak agree that bicycling has provided them with many opportunities to travel and stay fit.
Encouraging Efforts to Go Green

Ask anyone in the area to name a physician who is passionate about being environmentally friendly, and pulmonologist Walter Wynkoop, M.D. will likely be one of the first names that comes to mind. For years he has been an advocate for the environment, and his efforts include participating in Ocean Medical Center’s Earth Day activities.

Recognizing Dr. Wynkoop’s passion, as well as the trend in popularity among other team and community members, Ocean Medical Center installed two special outlets in its parking garage to accommodate electric cars. Dr. Wynkoop was the first to try out the newly designated spots with his Chevy Volt, which is a plug-in electric hybrid. “Ocean has been enthusiastic in pursuing green initiatives,” says Dr. Wynkoop. “This is critical in the fight against air pollution, which contributes to asthma, COPD, and heart disease. It’s not just about being green. It’s about improving patients’ health.”
On a Mission
At Meridian Health, our commitment to improving the health and well being of our community goes far beyond our state and national borders – and our Medical and Dental Staff members truly showcase this dedication. Here are just a few examples of their selfless dedication to serving those who are less fortunate around the world:

Aswine K. Bal, M.D., HIV Clinical Center Visit, Ambo Hospital, Ethiopia
Andrew Blechman, M.D., Aloha Medical Mission, Philippines
Daniel Burzon, M.D., Medical Mission to Haiti
Michael Cahill, M.D., House of Friendship, Honduras

Henry E. Sprance, M.D., Medical Mission to Palestine

Delivering the Gift of Sight in Africa
As members of the non-profit organization Right to Sight and Health, Judith Simon, M.D., and Donald Macdonald, M.D., ophthalmologists affiliated with Riverview Medical Center, travel to Africa to provide eye care to a population who would otherwise be without. During each visit, they perform hundreds of eye surgeries, mostly to treat cataracts, the number one cause of preventable blindness in the world. It is also their mission to provide medical and eye care education for the local health personnel, including doctors, nurses, medical students, and community health care workers. Over the past year, Drs. Simon and Macdonald have traveled to Ghana, Senegal, Cameroon, and the Philippines, and they are planning a return trip to Bakel, Senegal this December.

A Journey to Palestine
Last October, Henry Sprance, M.D., a gynecologic oncologist at Jersey Shore, participated in a two-week medical mission to Palestine arranged by the Palestinian Children’s Relief Fund and sanctioned by the Palestinian Health Ministry. Dr. Sprance was assigned to the Beit Jala National Hospital, where he evaluated women from all over Palestine and performed surgery on five patients during his brief stay.
Healers’ Hobbies

From art and music to sporting precision, the talents and hobbies of our Medical and Dental Staff are multifaceted. Here are just a few of their stories.

Physicians Lose Their Lab Coats and Show Their Artistic Side

This year marked the 10th Annual Meridian Health Medical and Dental Staff Art and Photography Exhibit celebrating the artistic talents of our Medical and Dental Staffs, residents, and fellows of each Meridian hospital. On the evening of March 30, Meridian team members were invited to the Kurr Atrium at Jersey Shore, where there was entertainment and hors d’oeuvres for everyone to enjoy. Arthur Topilow, M.D., and his jazz ensemble provided entertainment throughout the evening, while team members walked the North South Concourse of the Northwest Pavilion to view the art work and photography of the following:

Patrick Buddle, M.D.
Andrew Conti, M.D.
Steven Crawford, M.D.
Nick Di Guglielmo, M.D.
Lauren Fischer, M.D.
Martin Fried, M.D.
Gerald Gildenberg, DDS
Noah Gilson, M.D.
Andrew Goldman, M.D.
Paul Klenoff, M.D.
John Kukucka, DMD
Edwin Leschhorn, M.D.
Shrikrishna Mate, M.D.
Sushil Mehandru, M.D.
Tommy Ng, M.D.
Nduche Onyeaso, M.D.
Richard Rhee, M.D.
Mark Schwartz, M.D.
Kyun Shin, M.D.
Donald Steinfeld, DPM
Stephen J. Swartz, M.D.
Jerome Vernick, M.D.
Charles Weber, M.D.

Following the exhibit, Mark Schwartz, M.D., kindly donated many of his works of photography for the Physician Lounge at Jersey Shore. His generosity was gratefully acknowledged by the Medical Executive Committee on behalf of the entire Medical and Dental Staff.
**Docs That Rock!**

On any given night out, you might find some members of them entertaining audiences with their musical talents. Our musicians include:

- **Michael DeVita, D.O.**, Writes music and performs with his band, Destiny Divided
- **John Donadeo, M.D.**, Plays guitar and sings in an R&B, funk, and soul band called Bonefide
- **Aron Gornish, M.D.**, Participates in a band and writes/records songs
- **Charles H. Hux, M.D.**, Plays 10 musical instruments and records pop, country, and love songs
- **Arthur Topilow, M.D.**, Plays piano with his jazz ensemble

**Don’t Be Cruel to This Physician**

If you stop in to Nabucco Restaurente in Toms River on a Friday or Saturday night, there’s a good chance you’ll see Just Us performing for guests. What you may not realize is that the lead singer is Ocean’s very own **Joe Dugenio, M.D.** When not caring for patients at the Ocean Care Center in Point Pleasant, Dr. Dugenio performs his favorite love songs and Elvis hits with the three person group, even dressing like Elvis for his performance!

**This Doc Plays Dirty**

**Jason Wong, D.O.**, completed the Tough Mudder Road Race, a 10-12 mile obstacle course designed by British Special Forces to test all-around strength, stamina, mental grit, and camaraderie. The course involves hills, mud, water, ropes, walls, electric shocks, and fire. Forget finish times; simply completing a Tough Mudder is a badge of honor. On average, only 78% of participants finish the event. Tough Mudder has raised over one million dollars for the Wounded Warrior Project.

**Meet Dog’s Best Friend**

When **Daran Haber, M.D.**, is not at Riverview Medical Center providing expert care to patients, he spends his time attending to the health and well-being of animals, locally and globally. A true animal advocate, Dr. Haber serves as vice president of the Board of Trustees for the Monmouth County SPCA and has traveled the globe with Project Animal Worldwide. As a board member of Project Animal Worldwide, he helps the organization deliver on its mission to develop spay/neuter programs, assist in animal rescue, and implement humane education in areas of the world where the homeless cat and dog population is unmanageable. On his most recent trip to Puerto Rico, Dr. Haber went to Dead Dog Beach to help provide care for feral dogs (which have been estimated in the hundreds of thousands) that are starving and often die of easily treatable diseases.
Ocean Physician Represents in Israel

Radiation oncologist **Nate Kaufman, M.D.**, completed the Half Israman Race held in Eilat, Israel in January. Dr. Kaufman has participated in sprint and Olympic-level triathlons, but this was his first half ironman. It’s quite a first race to attempt: the Israman has been recognized as one of the top 10 iron distance races in the world by *Triathlete* magazine. Despite it being an excruciating race, Dr. Kaufman is already planning for next year’s Israman. “This really felt like an accomplishment on so many levels,” says Dr. Kaufman.
