

Meridian Health Core Measure Quality Indicator Information/Reference

Outpatient Surgery (OSURG)

Prophylactic Antibiotic Timeliness

Administer within 1hr prior to surgical incision [or 2hrs if giving Vancomycin or a fluroquinolone].
Documentation must clearly reflect actual administration and Antibiotic name, Date of administration,
Time of administration, Route of administration

*Pts with preoperative infections are excluded. Document suspected/diagnosed infections clearly;
Symptoms do not count.

Prophylactic Antibiotic Selection

Administer the recommended prophylactic antibiotics for the applicable surgeries.

See SCIP Antibiotic Table for recommended prophylactic antibiotics

*Document reason if prescribing Vancomycin

Utilize the preoperative prophylactic surgical antibiotic order form to ensure most current
recommended antibiotics are ordered.

Note: Replacement of previously placed PEG are excluded

Applicable Surgeries (CPT codes):

Cardiac: 33206, 33207, 33208, 33212, 33213, 33214, 33215, 33216, 33217, 33218, 33220, 33222,
33223, 33233, 33234, 33235, 33240, 33241, 33244, 33249, 36830

Orthopedic: 22206, 22207, 22208, 27235, 27269, 27440, 27441, 27442, 27443, 27446, 27702, 27758,
27759, 28293, 28415, 28420, 28445, 28465, 28485, 28505, 28525, 28531, 28555, 28585,
28615, 28645, 28675, 28705, 28715, 28725, 28730, 28735, 28737

Genitourinary: 54400, 54401, 54405, 54406, 54408, 54410, 54415, 54416 (Penile prosthesis insertion,
removal, revision)

Gastric/biliary: 43246, 43832 (PEG placement)

Gynecological: 58260, 58262, 58263, 58270, 58290, 58291, 58292, 58293, 58294, 58550, 58552, 58553,
58554, 58570, 58571, 58572, 58573 (LAVH, Vaginal Hysterectomy)

Gynecological: 57288, 57423 (Pubovaginal sling)

Head & Neck: 21454, 21461, 21462, 21465, 21470, 43130

Neurological: 62230, 62360, 62361, 62362, 63001, 63003, 63005, 63011, 63012, 63015, 63016, 63017,
63020, 63030, 63040, 63042, 63045, 63046, 63047, 63056, 63075
